* repeat step 2, **absorbent paper and hot iron

TYPE OF TREATMENT

(Cleaning recommendations listed numerically on Spot Removal Chart)

1. Add cold water and blot
2. Detergent solution or WoolClean Dry Spot Remover #1
3. Methylated mineral spirits, turpentine, or WoolClean Dry Spot Remover #2
4. Chill with aerosol freezing agent or ice cubes in a plastic bag. Pick or scrape off gum.
5. Warm water
6. Clean nail polish remover (preferably acetone)
7. Isopropyl alcohol
8. Rust remover
9. Absorbent powder (e.g., salt, talc or Absorb-It™)
10. Absorbent cleaner (Host®, Capture® or Dri-Matic®)

CLEANING AGENTS FOR SPOT REMOVAL

DETERGENT SOLUTION Mix one teaspoon of clear dish washing liquid or detergent powder (containing no bleaches or strong alkalis) with a cup of warm water. This solution must be well rinsed with clear water.

ABSORBENT CLEANERS Host, Capture, or Dri-Matic.

Warnings:

- Some chemicals are hazardous (corrosive, flammable, toxic, etc.) and should be used with great care, strictly in accordance with their use and safety instructions.
- When applying Dry Spot Remover #2 or other solvent-containing products, have the work area well ventilated.
- Do NOT apply stain repellent treatments which contain any silicone because they tend to accelerate carpet soiling. Unique will not accept complaints where such treatments have been used.
- Always pre-test a cleaning agent in an inconspicuous place, such as under a piece of furniture or in the corner of the room, to insure that it does not remove color.
